Dear Parent/s

#### UPDATE ON CHANGES TO THE ENTRANCE OF THE SCHOOL

Due to the erection of the vibacrete fence by the owners of the property adjacent to the school (at the joint entrance to the premise) drivers are now only able to turn “**right**” upon entering the premises.

We have completed the widening of the front entrance to approximately 6 meters, which will now allow vehicles to ingress and egress the premises at the same time. We will shortly be painting road direction markers to assist drivers when entering and leaving the premises

We have also installed a new gate at the entrance to the property to regulate vehicle and pedestrian access. This gate will soon be motorised as a further safety control measure where all visitors will be required to announce themselves before they are granted access onto the property

The gate will, however remain open in the morning and afternoon during the times when learners are dropped off and collected respectively

The area outside the school wall has now been paved and may be utilized as a drop-off area by parents and transport providers

As a further measure to alleviate on-site vehicle congestion, we request that our parent/s and transport providers, park their vehicles on the vacant plot at the NG Digtebij Church on the corner of Sarepta and Letrus Streets when dropping their child/children off in the mornings and to do the same when collecting them in the afternoons. Parent/s and transport providers can also park in the adjacent side streets to drop and collect children

We respectfully request that parents make use of these drop off and collection points and to walk their child/children into and from the school on a daily basis and not park on the school’s premises where possible

We would ask that parents please adhere to these parking arrangements, especially now that all learners will be back at the same time to write their final examinations for 2020

We thank you for your understanding and cooperation in this matter

Kind Regards

Pastor Stuart Farquhar  
Senior Administrator
